MAGNIFIER -PRCODE 1706

High Quality acrylic Lence,light weight

DAMPER ROUND - PRCODE : 1725

Available in package of 10's SKU in three colors

PAPER WEIGHT PRODDUCT CODE ANK 202

Made with unbreakable ABS Plastic and available in assored colours SKU 20's

PAPER CUTTER BIG P.CODE 1793

Omega Products ,Rigid ABS body with click lock mechanism. Blade size 80x9mm,SKU 20's

PAPER CUTTER SMALL P.CODE 1795.

ABS Body Click Lock,80mmx9mm blade,available in assorted colours

AUTO LOCK METAL CUTTER P CODE M9

Kanagroo Product ,Full stainless steel body and very sleek design best for office and home use

AUTO LOCK STEEL PAPER KNIFE P.CODE M 19

Kangaroo product, best suitable for heavy work like cable cutting and hard board cutting .suitable for project work for students

PAPER KNIFE STEEL P CODE MRG-18

Kangaroo product,heavy duty with ABS boady covering for extral grip and safty

TOKEN STAND P CODE 916

A quality product from Ajentha steel. galvanised steel for rust free situvation,20 no in a box

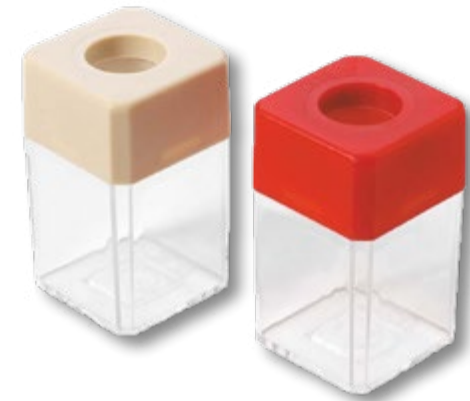

DELUX CLIPBOARD-1710

Suitable for A4 Paper, Polystyrene material, Exclusive plastic clip, side grip slot for Paper, available in assorted colours

EXECUTIVE CLIP BOARD-1712

Suitable for FS paper size, Large metal Clip to hold the paper, available in different colours

CLIP DISPENSER DELUX 1797

Magnetic top to hold the pin in place, transparent see through bottle, available in different colours.

CLIP DISPENSER ROUND-1794

Magnetic top to hold the pin, multi faces see through bottle to hold more pin, available in various colours

PAPER CUTTER LARGE 16" (40.7 CM)

Self Sharpening Steel Blade, anti skid rubber feet, Powder coated Finish, soft handle

PEN TRAY OPAQUE/TRANSPARENT -1703

High Gloss Finish, place for pen, clip, and other items to enhance the efficiency at work place

ORGANISATION

THE KEY OF PRODUCTIVITY

KEY ORGANIZATION

Small dedicated key rack is perfect for a tiny entryway and three or four hooks give you plenty of room. But, if you need something a bit more substantial, you have plenty of options to choose from, you can get an organizer that handles your keys all in one.

Our key board and the named key chain is a best example of the productive work place .In office ,lodges , workshop and other similar place the key board and keys are very useful for a productive organization

The keys are fitted with quality naming labels and can be easily identified with the help of the color code

KEY ORGANIZER BOARD P CODE 1766

Can accomodate 20 key,numbered for easy organisation Free 20 key Chain

KEY CHAIN ELEGENT P CODE 1754 B

Easy labeling mechanism,available in assorted colours and 50nos in a plastic bottle

POLYNET SELF ADHESIVE ENVELOPES

Good packaging is a prerequisite for smooth delivery of products which in turn leads to 'customer delight'. With the Internet making its presence felt in our lives, frequency of shipping packaged products has increased remarkably.

Despite novel things transpiring in the packaging industry, courier still remains the prime way to ship packaged products. For this, various packaging products are being used. Polynet Paper Envelope is the most commonly used packaged product in this segment.

Polynet envelope with self adhesive closer made our envelop a customer liked one during a short span of time.

Premium quality paper along with pp material coating inside ensure the security of your document three time more than any conventional cloth cover. The presumed envelope is of best quality and give best pasting experience even after years . Envelop are available in almost all standard sizes as shown in the table . The packaging is of 50's and that is very convenient S K U for your need.

DESKTOP ORGANIZERS

DESK ORGANISER

If your desk is a mess, you're not alone. With so many adults working from home, desk drawers are getting more of a workout than ever before. And with so many hands—big and small—taking things out and putting them back, it's easy for drawer contents to get jumbled up. Luckily, with the right tools and organizing tips, restoring order should take less than an hour.

Create a well-ordered workspace that boosts productivity with these budget-friendly premium organizers. Various models are starting from a normal pen holder to a document organizer drawer with a central locking facility

MODULAR DRAWER -AMDS 4

modular drawer with four tray, Name label and central lock for increased seafy,available in wooden finish

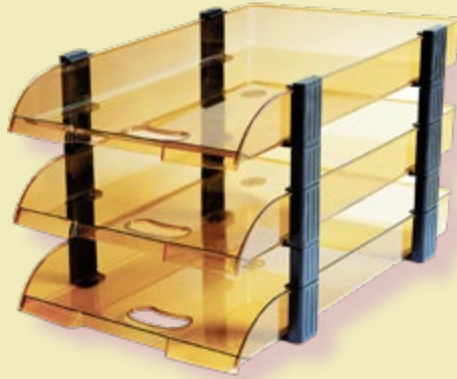

MODULAR DRAWER -AMDS-12

twelve drawer,with name label and central lock ,available in 6 and 3 drawer model also.

EXECUTIVE PC TRAY WITH TOP P 1758/UT

The top is smartly designed to fit all utilities,elegent design with acrilic material

EXECUTIVE FILE TRAY SET OF 3 -1758 U3

Also available is set of two tray also. made with toughened impact proof pastic ensure durability.

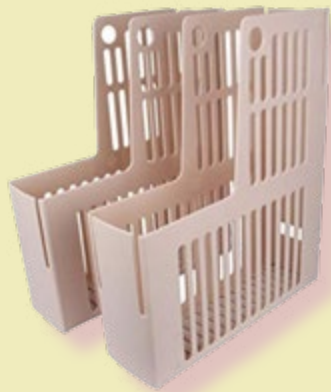

DELUX OFFICE TRAY P CODE 1739S

Stylish model with solid feel.tray can slide forward and backward . Large area to store documnets and files.

ELEGENT OFFICE TRAY PRODUCT CODE 1746

tray size 330x245x51mm,can used with or with our steel resirs.available SKU 2's

MAG RACK PRODCUT CODE 1729

can be used in vertical and horizontal position sutable for document file.size 310x260x70mm SKU 2's

MAGAZINE FILE RACK P CODE 1760

Extra wide with economically priced. available in assoted colours SKU 2's.

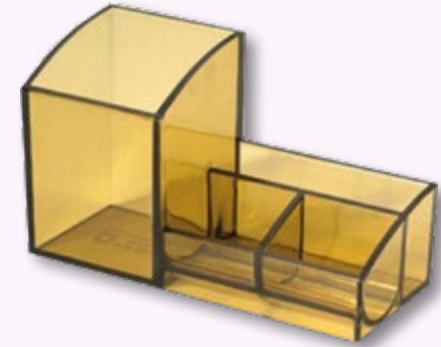

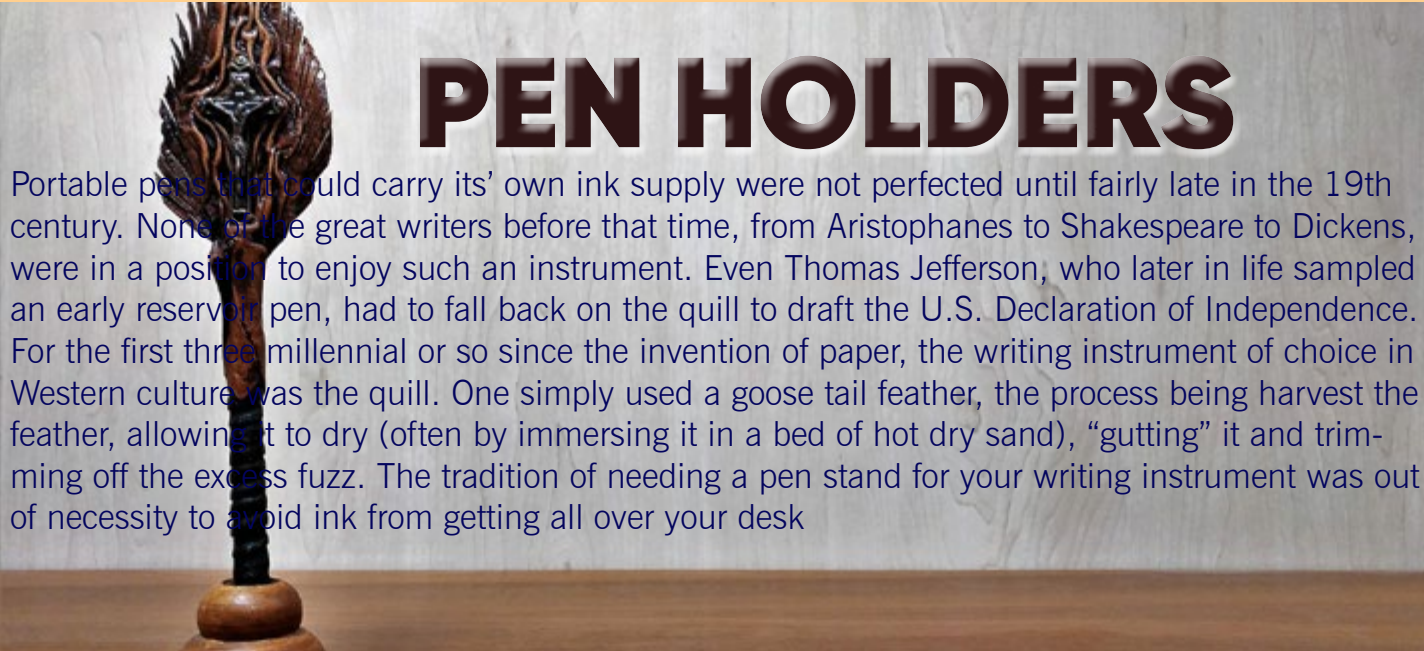

ELITE OFFICE TRAY P CODE 1755

345x26x60mm size with set of 3 with two set of 2 risers available in assorted colours

PEN HOLDERS

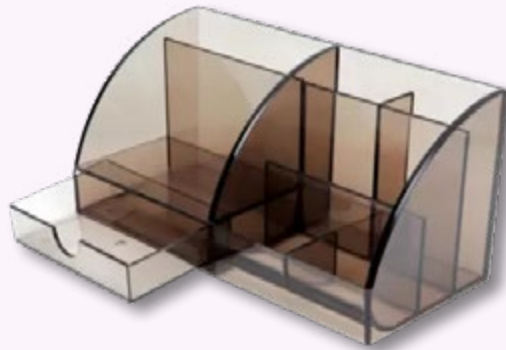

Portable pens that could carry its' own ink supply were not perfected until fairly late in the 19th century. None of the great writers before that time, from Aristophanes to Shakespeare to Dickens, were in a position to enjoy such an instrument. Even Thomas Jefferson, who later in life sampled an early reservoir pen, had to fall back on the quill to draft the U.S. Declaration of Independence. For the first three millennial or so since the invention of paper, the writing instrument of choice in Western culture was the quill. One simply used a goose tail feather, the process being harvest the feather, allowing it to dry (often by immersing it in a bed of hot dry sand), "gutting" it and trimming off the excess fuzz. The tradition of needing a pen stand for your writing instrument was out of necessity to avoid ink from getting all over your desk

PEN HOLDER ELITE PCODE 1727

Rectangular shape to accommodates pen , pencil visiting card, pins etc.

Dimension: 170 mm x 70 mm

PEN HOLDER MILLANIUM

Big in Size ,pocket for keeping mobile phone,visiting card,memmo pad and other materials.

PEN HOLDER PLATINUM PCODE - 1707

Multi-utility to accommodates pen , pencil , memo pad, visiting card, marker pen, pins, etc. 80 pieces in a master carton.

PEN HOLDER EXECUTIVE PCODE 1732

Triangle shape to accommodates pen , pencil, stapler, marker pen etc.attractice minimalist design .

Size 57x37 mm, SKU 10,s and multyples of 10.Made with ABS materials and available in assorted colours

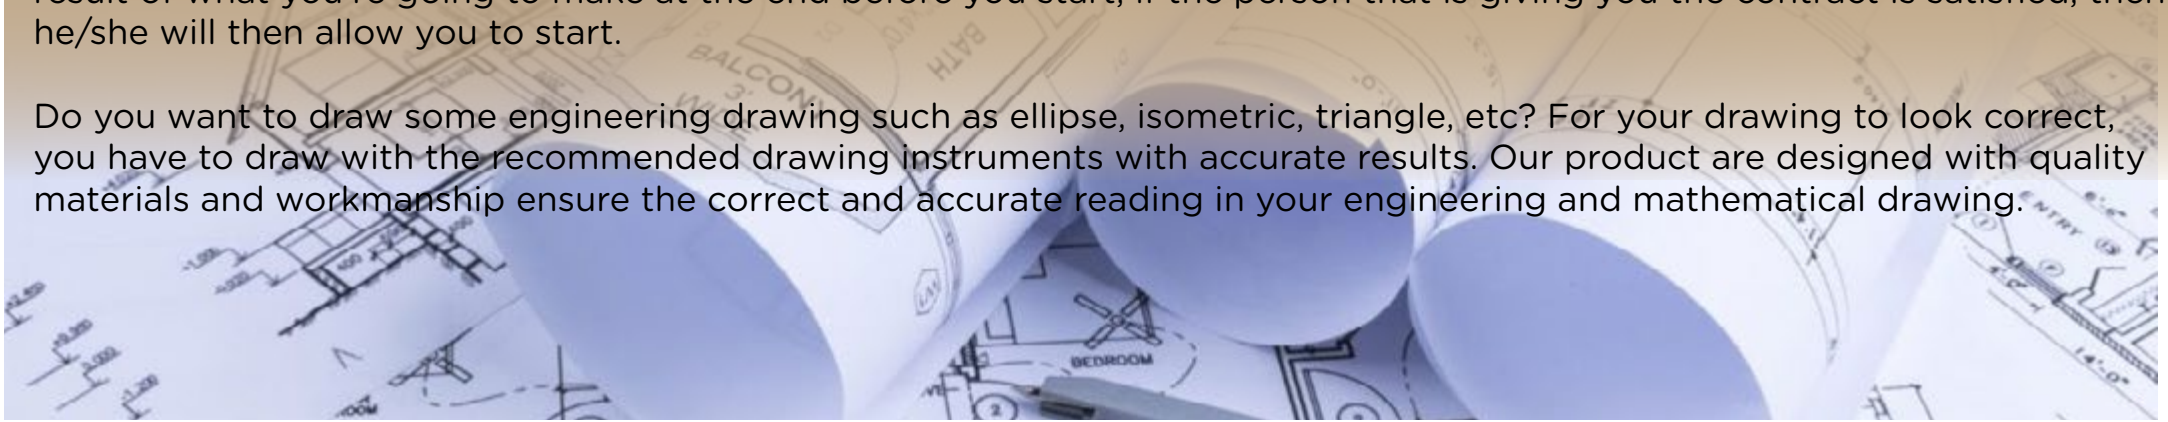

PAPER CLIP SUPREME CODE 1786
Could be suspended on wall to serve as memo holder Size 60x50x35 mm

DRAWING INSTRUMENTS

Drawing is in higher demanding than text or all other written explanations. In engineering and everything, people prefer drawing to text as it describes something vividly than text. Assume, When you are given a contract, you have to draw the result of what you're going to make at the end before you start, if the person that is giving you the contract is satisfied, then he/she will then allow you to start.

Do you want to draw some engineering drawing such as ellipse, isometric, triangle, etc? For your drawing to look correct, you have to draw with the recommended drawing instruments with accurate results. Our product are designed with quality materials and workmanship ensure the correct and accurate reading in your engineering and mathematical drawing.

MINI DRAFTER

Omega Brand mini drafter packed in a carrying Pouch ,quality steel moving parts ensure error free drawing..

T SCALE MOLDED 24"/60CM 1953

SIZE 675 mm x 290 mm x 3 mm also available in 80 cm length

SET SQUARE WITH PROTRACTOR CODE 1522P

Set Square 20cm 45° and 25cm 60° SKU 10's

SET SQUARE WITH PROTRACTOR CODE 1522P

Set Square 25cm 45° and 30 cm 60° SKU 10's

SPRING BOW COMPASS PCODE 1515

Removable divider point and one divider point is fitted with lead holder for easy drawing

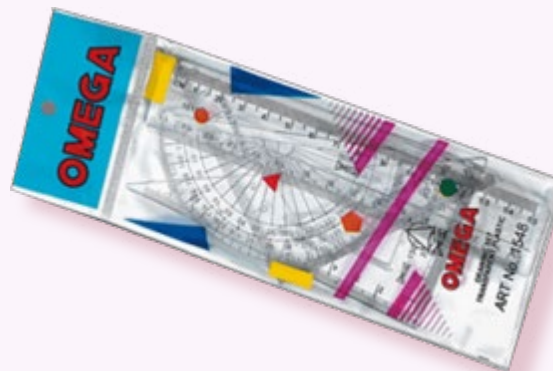

ENGINEERING COMPASS P CODE 1590

set of 6 pieces (compass of two different sizes, one mechanical pencil, lead container and pencil holder, packed in an attractive plastic box)

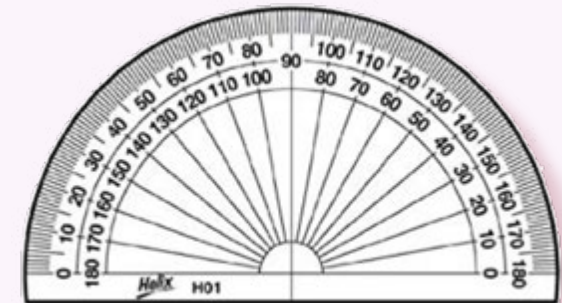

LEAD COMPASS PRODUCT CODE S 103

Made with diecast iron, size 150 mm, accuracy in drawing available in single pcs packing

DRAWING SET PCODE 1548

set square 60° and 45° protractor semi circular-180° and 15 cm Ruler

SEMI CIRCULAR PROTRACTOR 10 CM P 1502

ideal for mathematical geometry drawing. made with premium acrylic to ensure crystal clear view. available in 10's SKU SRF 8

PROTRACTOR 10 /12 CM P 1539/1540

clear view with premium acrylic material ,ideal for geometrical drawing.

PROCIRCLE (LIBA) P 1506

best for drawing small circle with various diameter. available in SKU 20's SRF -15

ROLL PACK PAPER CONTAINER

Ideal for keeping drawing paper roll with out damage. available in black and other colours.

DRAFT MAN'S CLIP PLASTIC 1658

available in plastic and metal in a set of four pcs

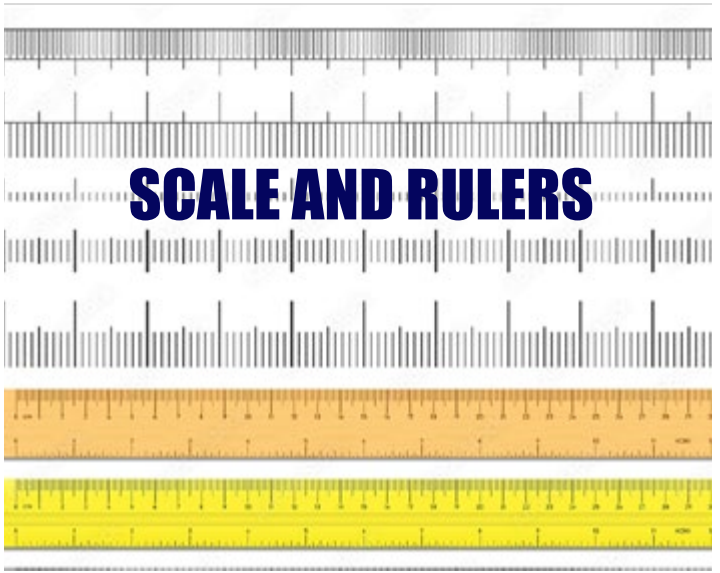

DRAFT MAN'S CLIP METAL P CODE 1959

available in plastic and metal in a set of four pcs

DRAFT MAN SCALE P CODE 1932

available as a set of four pieces in a plastic cases.

STEEL SCALE

Quality product from Ajentha Steel Industries Ltd
 Engraved and computerised printing for crystal clear visibility
 High gauge stainless steel bar prevent bending even after years
 Available in 15 cm , 30cm, 45cm, 60cm and 100 cm

PLASTIC SCALES

Made with premium acrylic material to ensure crystal clear view , high quality printing enable clear reading and make it easy for your drawing work.
 Available in 15cm,30cm,45cm and 60 cm with SKU 10's in pouch packing .

Measurements are important in the real world. What are they?

They are the numbers linked to things that show their size, amount, or magnitude. Without measurements, we wouldn't be able to describe how large our house is or how fast we can run.

ROLL AND DRAW 30 CM CODE 1935

Ideal for drawing parallel lines SKU 20's

ROLL AND DRAW 16 CM CODE 1936

Ideal for drawing parallel lines SKU 20's

ALPHA NUMERIC STENCIL

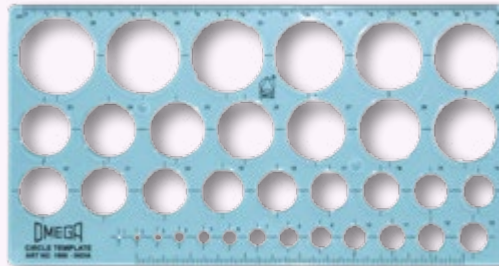

Stenciling produces an image or pattern by applying pigment to a surface under an intermediate object with designed gaps in it which create the pattern or image by only allowing the pigment to reach some parts of the surface. The stencil is both the resulting image or pattern and the intermediate object; the context in which stencil is used makes clear which meaning is intended. In practice, the (object) stencil is usually a thin sheet of material, such as paper, plastic, wood or metal, with letters or a design cut from it, used to produce the letters or design on an underlying surface by applying pigment through the cut-out holes in the material.

The key advantage of a stencil is that it can be reused to repeatedly and rapidly produce the same letters or design. Although aerosol or painting stencils can be made for one-time use, typically they are made with the intention of being reused. To be reusable, they must remain intact after a design is produced and the stencil is removed from the work surface. With some designs, this is done by connecting stencil islands (sections of material that are inside cut-out “holes” in the stencil) to other parts of the stencil with bridges (narrow sections of material that are not cut out). Our alphanumeric stencils are best suitable for students ,drawing enthusiastic and anyone wants to produce a neat design with out efforts .In addition to alphanumeric ,we have India map stencils for students with this they can easily create the appropriate map as an when they required.

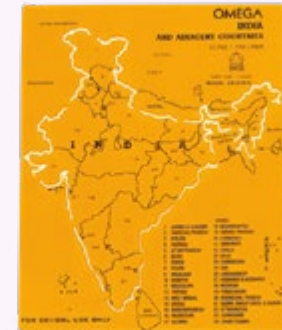

STENCIL3 IN 1 CODE 1965

Alpha numeric slot with 4,6,and 8 mm size
.available minimum SKU 10's

CIRCLE TEMPLET - 1965

Quick and convenient to draw circles of most popular diameter.

INDIA MAP STENCIL P CODE 1660

Indaia map outline ,ideal for students projects
.available minimum SKU 10's

STENCIL 5 MM P CODE 1968

Alpha numeric stencil for students ,available minimum SKU 10's

STENCIL 10 MM P1961

Alpha numeric slot with 10 mm size .available minimum SKU 10's

STENCIL 15 CM P CODE 1962

Alpha numeric slot with 15 mm size .available minimum SKU 10's

STENCIL 25 CM P CODE 1964

Alpha numeric slot with 25 mm size .available minimum SKU 10's

LETTERING STENCIL 35 CM P CODE 1965

Alpha numeric slot with 35 mm size .available minimum SKU 10's

STENCIL 50 MM P CODE 1966

Alpha numeric slot with 50 mm size .available minimum SKU 10's

TAPE DISPENSERS

PCODE-1748-ELEGANT TAPE DISPENSER

Seamless & clean welding technology
Uniquely designed and stable base.

JUMBO TAPE DISPENSER 1768

two core size 25mmx10 meter and 75 mm core for tape up to 65 meter leangth. SKU 24's

CELLO TAPE DISPENSER CODE 1775

An economy model available in assored colours. SKU 30's

TAPE DISPENSER DELUX MINI P CODE 1773

25mm core for tape up to 10 meter length tape. Available in SKU 12's

TAPE DISPENSER SUMO PCODE

Omega brand, 2" table top tape dispenser

2" CATRON SEALER P CODE 1782

omega brand ,adjustable tension and economy model.

2"/3" CARTON SELAER KTD 50/KTD75

Heavy duty Kangaro Product ,sure cut serrated stainless steel blade

TAPE DISPENSER HANDY PCODE 1769

made with strong ABS body, stainless steel cutter and suitable for 25mm diameter roll

TAPE DISPENSER P CDOE TD-18 Y

Kangaro Product .Dispenser with a Clear tape 18mmx24m .Compact and light weight

UTILITY TAPE DISPENSER PCODE

This mini dispenser can be used as pen holder as well as other office utility hoder.

A WHITEBOARD (known as a marker board, dry-erase board, dry-wipe board, and pen-board) is a glossy, usually white surface for making non-permanent markings. Whiteboards are analogous to blackboards with a smoother surface allowing rapid marking and erasing of markings on their surface. The popularity of whiteboards increased rapidly in the mid-1990s and they have become a fixture in many offices, meeting rooms, school classrooms, and other work environments.

WHITE BOARD

GREEN BOARD

A resin-infused paper is typically used over a substrate that can range from particle board to MDF (medium-density fiberboard). Melamine boards range in quality primarily because of the amount of resin deposited on the base material. Some melamine boards remain clean (no ghosting) for a long time, others less so. Generally, this least expensive type of whiteboard is most commonly found in use in non-institutional applications. Performance varies widely. These boards are not suitable for heavy use, as in many educational cases, with time the paint erodes and the original surface reappears.

MODERN PERFORATED DISPLAY BOARDS

SL. NO.	NAME	DESIGNATION
1	DR. GANAPATHY	PROFESSOR
2	DR. BALU	ASST. PROFESSOR
3	DR. VASANTHI	LECTURER

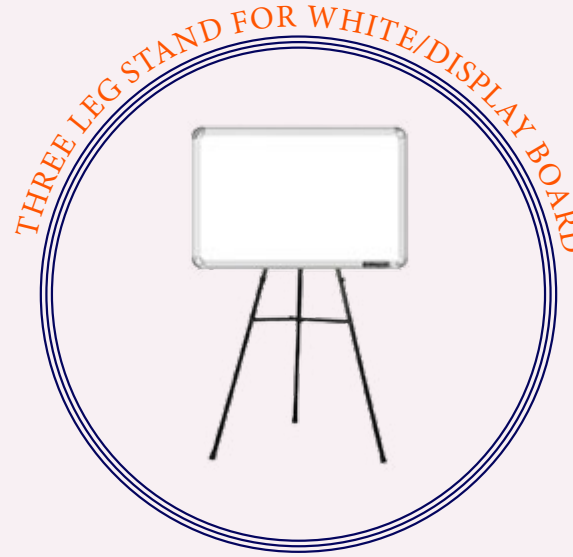

NOTICE BOARD

WHITEBOARD ACCESSORIES

There is various type of items as compliments to the whiteboard. In case of wall mounting is a problem for the customer, we have three and four-leg stands for medium and bigger boards.

SuitableSu erasers for whiteboard and green chalkboards are available with pen holders. In case you require a magnetite duster to stick on your board we have the items too.

To teach geometry the whiteboard drawing instrument is very sentential school, there are three types of the product available with us.

Success is also about being organised and efficient

Part of being successful at a work place is also about being organised, efficient and precise. That's exactly what the MUNIX PRIME range of scissors can help you achieve. Packaging : blister

TERMINOLOGY

File or folder are other terms used for file folders, but file folders is a common name for the item in the United States. Manila folders are likely the most common, but file folders come in many different forms. In India, letter and legal sizes are common.

The exact way to refer to this kind of folder is somewhat unclear. There is no internationally standard term. The term file folder seems to dominate the North American language but does not seem as common in other countries. As stated, some refer to file folders simply as folders, but in North America, this is confusing because folders can refer to several different things. Others use the term manila folders, but this is confusing because not all file folders are made of Manila hemp. This type of folder is sometimes incorrectly referred to as a "vanilla folder."

Another commonly used folder type is the hanging folder, which has hooks on all four corners that slide over a rail. Normally, hanging folders are used to file one or more manila folders, and it is not a common practice to put loose sheets directly into hanging folders. When some documents need to be retrieved, the corresponding manila folder(s) are removed from the hanging folder. The hanging folder itself is left in its place on the rails.

Occasionally, the term for the item changes based on its context. Some may refer to file folders as files when they are being used for storage." Then again, office furniture that holds paper documents is invariably referred to as a Filing cabinet or simply a file cabinet, and never a folder cabinet.

PACKING TAPE

BOPP tapes are among the most widely used in the shipping and inventory management industries. They are known for their strong, secure seals and resistance to extreme temperatures. But why are BOPP tapes so strong, and what uses are they best suited for?

What is B O P P?

BOPP stands for Biaxially Oriented Polypropylene. BOPP film is stretched flat (that's the "biaxially-oriented" part); polypropylene is a thermoplastic polymer, which means that it is malleable at certain temperatures but returns to a solid form when it is cooled down.

B O P P film is commonly used in a variety of packaging applications; you can find it on anything from snack food packaging to soft drink labels. This same B O P P film technology is also used in a variety of the most popular packaging tapes.

The applications of BOPP

BOPP tapes come in two types:

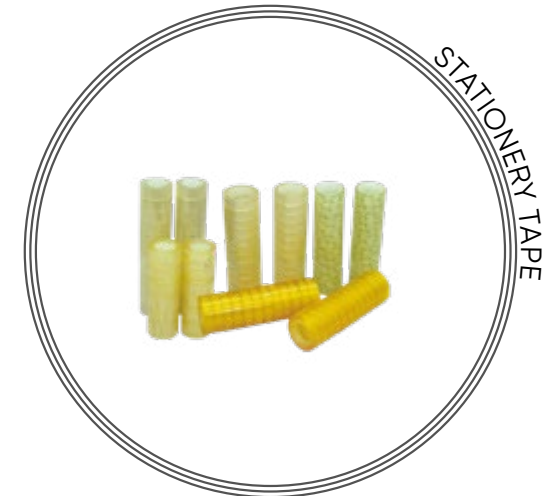

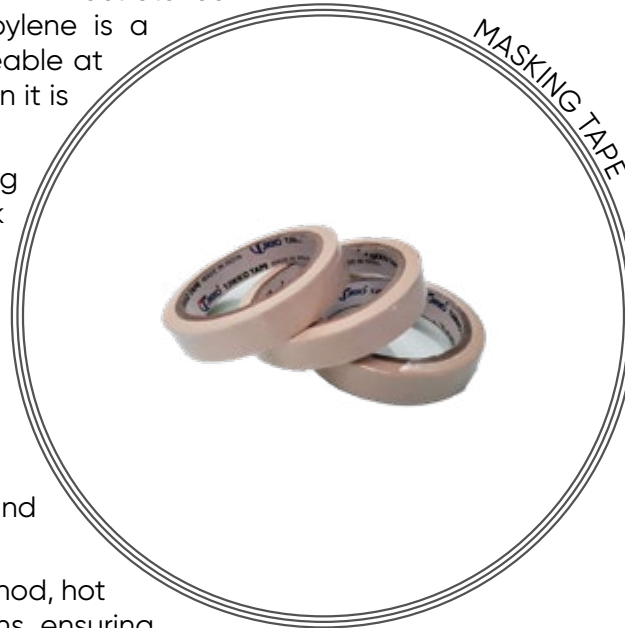

Hot melt, which offers superior holding power.

Acrylic tapes offer a superior temperature range and better oxidation resistance.

Thanks to their stronghold and easy application method, hot melt tapes are ideal for most packaging applications, ensuring your packages and cartons remain sealed during transit. On the other hand, acrylic tapes are ideal for situations of extreme temperature, humidity, and oxidation. They are also preferable for use when sealing recycled cartons.

Masking Tape

A multipurpose tape with a crepe paper carrier and solvent adhesive, masking tape (as its name suggests) provides a highly effective barrier to aerosol paints in the vehicle bodywork industry, creating a clean edge, resistant to paints and solvent and leaving no residue on removal. It is also valuable as a low-tack, temporary packing tape or protective layer for intermediate protection of components during the production process.

We all love **STICKERS** because they are colourful and fun. We use stickers to decorate our water bottles, cars, laptops, notebooks, or refrigerators because they complement our items.

Today, many people still don't realize the power of sticker marketing. These tiny little things can send messages about anything, even if their design consists of just a simple logo.

With these stickers, you can increase your brand and product exposure to your online and offline platforms. Here are seven ways to use stickers for business purposes

CORPORATE AND PERSONAL GIFTS

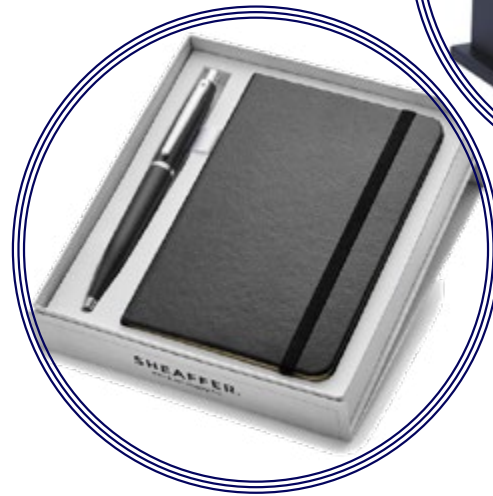

PARKER - SHEAFFER - PEN LINE

Branded pen customised with your Logo and message increase the ambience of your corporate gift. We have premium brand pen at highly competitive price for your gifting needs.

In addition to premium pen we have pen holders of various type to use as a corporate gift, these items can be engraved with latest computer controlled engraving mechie as per your requirements.

Power bank with organiser, pen with journal books, are very fast moving and customer liked gift products in our range.

A **STAPLER** is a mechanical device that joins pages of paper or similar material by driving a thin metal staple through the sheets and folding the ends. Staplers are widely used in government, business, offices, workplaces, homes and schools. The word “stapler” can refer to several different devices of varying uses. In addition to joining paper sheets together, staplers can also be used in a surgical setting to join tissue together with surgical staples to close a surgical wound (much in the same way as sutures). Most staplers are used to join multiple sheets of paper. Paper staplers come in two distinct types: manual and electric. Manual staplers are normally hand-held, although models that are used while set on a desk or other surface are not uncommon. Electric staplers exist in a variety of different designs and models. Their primary operating function is to join large numbers of paper sheets together in rapid succession.

PUNCH

The essential parts of a hole punch are the handle, the punch head, and the die. The punch head is typically a cylinder, with a flat end called the face. The die is a flat plate, with a hole matching the head. The head can move, while the die is fixed in place. Both head and die are usually made of hard metal, with precise tolerances. One or more sheets of paper are inserted between the head and the die, with the flat face of the head parallel to the surface of the sheets. Moving the handle pushes the head straight through the sheets of paper. The hard edge of the punch vs the die cuts a hole in the paper, pushing the cut piece out the bottom of the die. The cut-out bit of paper scrap is called achad.
